JAPANESE POLITICS.

THE PROGRESSISTS AND THE CRISIS.

The opening of the Diet, which is convoked for Saturday next being so close at hand, the political parties are showing much activity, says the *Kobe Chronicle* of 3rd inst. On Tuesday the Committee of the Tokyo branch of the Progressist party held a meeting, when about thirty gentlemen were present, and a manifesto was adopted to the following effect:—

1.—The negotiations with Russia are being protracted beyond reasonable bounds. The Government has repeatedly missed opportunities for action, and has allowed the Russians to have everything their own way in Manchuria, to the detriment of the prestige of Japan. The rights and interests of Japan have been damaged, with the result of arousing national resentment against the Government. Such an incapable Ministry should not be allowed to err further in this direction. We must effect a change in the present Cabinet, and thus comply with the wishes of the people of the Empire.

2.—The administrative and financial reforms are the only undertaking which the Government has officially pledged itself to bring before the Imperial Diet. The reforms so far effected are only temporary, and nothing has really been done to improve the essence of the administration. We are now convinced that the present Ministry is unworthy of being entrusted with such work.

3.—The estimates for the improvement of Kelung harbour and the scheme for the compilation of school text-books were struck out of the Budget in the last session of the Diet. Yet the Government has spent money in connection with these matters in an irregular manner, not waiting for the consent of the Diet. This not only creates a very bad precedent in the working of constitutional government, but also tramples down the spirit of the Constitution.

The Tokyo branch of the Progressist Party aims at carrying into effect the following in order to advance the prosperity and welfare of the city of Tokyo:—

(1)—That the evils attending the municipal administration of the country be immediately removed; (2) That the 6th National Exhibition be held in Tokyo; (3) That the drainage system of the city be improved.

MAILS FOR THE FAR EAST.

The official "Post Office Daily List" published in London on Nov. 9th contains the following announcements regarding mails:—

Mails for Egypt, Ceylon, Japan, China, Australasia, &c., via Italy: extension of time of posting at the General Post Office, St. Martin-le-grand. Letters for transmission via Italy can in future be posted as follows:—For Egypt, India, Ceylon, Australasia, &c., every Friday, and for Straits Settlements, China, Japan, &c. alternate Fridays only, from the 20th of November (up to 9 p.m. with a late fee of 4d. in addition to the postage).

Mails for the Far East (via Siberia), for letters and post-cards only.—The Siberian route is now available for the transmission of letters and post-cards from this country for the Far East, but not for any other classes of correspondence or parcels. Letters and post-cards intended for transmission by this route should be specially superscribed "via Siberia" or "via Russia"; and the postage must be fully prepaid. Any letters and post-cards to which these conditions are not observed will be sent by the ordinary routes followed in other cases. Letters addressed to H.M. ships on the China Station, to the Colony of Hongkong, or to Chefoo, Wei-hai-Wei, Shanghai, Amoy, Canton, Foochow, Hankow, Hoihow, Ningpo, and Swatow, at all of which places there are British Post Offices, can pass at the rate of 1d. per ½ oz. To other places in China (including Manchuria), and also to Japan, Korea and the Philippine Islands the rate for letters is 2½d. per ½ oz. The rate for post-cards is in all cases 1d. each. Mails containing correspondence complying with the above-mentioned conditions will henceforth be despatched from London to Moscow every evening, Sunday excepted. From Moscow there is a daily service to Dalny or Vladivostok, whence the mails are sent on by Russian steamers as opportunities offer. The time occupied in transit varies according to circumstances from 22 to 30 days.

BEFORE THE DAWN.

ARE THE SKIES CLEARING IN THE FAR EAST.

The pretext for the re-occupation of Mukden by Russian troops, says the *N. Y. Sun*, is that the Chinese authorities, lately installed there, were unable to maintain order, which is probable enough. We do not believe, however, that a step likely to irritate the war party at Tokio would have been taken at this time unless it were known that the negotiations between Russia and Japan had taken a favourable turn, and that a definite agreement between the two countries was in sight.

What would be the purport of such an agreement is obvious. The Japanese, on their part, would recognize the impracticability of leaving the Manchurian Railway and the large towns on or near the line at the mercy of marauders whom the Chinese authorities have shown themselves powerless to repress, and their consequent necessity of deferring Russia's evacuation of Manchuria for an indefinite period. Such an agreement would have to be made in the teeth of the war party at Tokio, which has persistently demanded the immediate fulfilment of the promises made by the St. Petersburg Government, that the evacuation of the three Manchurian provinces should begin on Oct. 8. In return for this concession, Russia would be expected to covenant to refrain from encroachments on the territorial integrity and political independence of Korea, and henceforth to regard that country as ex-

clusively within Japan's sphere of influence. That will be, no doubt, the basis of the understanding at which Baron de Rosen, the Russian Minister at Tokio, and the Mikado's Minister for Foreign Affairs will arrive, if the negotiations in which they have been long engaged are to have a pacific outcome.

The peace thus secured can, nevertheless, be but temporary. Intelligent Japanese are under no illusions on that point. Between the Russians firmly planted in Manchuria and the Japanese established in virtual control of Korea, an ultimate collision is inevitable. The interests of Japan and Russia in the Far East are essentially irreconcilable, and a conflict between them will prove, in the end, irrepressible. It is also true, as the war party at Tokio has maintained, that Japan has less to gain by delay than has Russia, which will devote the interval secured by diplomacy to the improvement of the Trans-Siberian Railway for military purposes. Even those Japanese, however, who have insisted that it would be wiser to fight now than to postpone the contest to a few years hence recognize that modern warfare cannot be conducted without money, and that their country would be disqualified for a long struggle, unless she could rely upon obtaining pecuniary assistance from Great Britain. No assurances of such financial support have been procurable, for the reason that the Balfour Government is preoccupied at home, and is desirous of averting an outbreak of hostilities in the Far East.

Another consideration would check the ascendancy of the war party at Tokio. Under the terms of the treaty with Great Britain, the Japanese cannot claim the aid of their ally in a war wherein they themselves have been the aggressors. Yet they cannot easily provoke the Russians to an act of unmistakable aggression, because the latter, in their turn, are subjected to the restraining influence of their treaty with the French in a contest wherein he has been the aggressor. It is true that such stipulations might not be strictly construed, if either France or England were disposed to welcome complications that might bring them into collision with one another. As a matter of fact, a contrary disposition exists. France and England have never been so friendly, since the outset of the Crimean War, as they are today. We may be sure, therefore, that all the influence of the French and British Governments has been exerted at St. Petersburg and Tokio to prevent a war in the Far East.

It is easy, then, to understand why both Russia and Japan have thus far shrunk from committing acts which would be universally acknowledged as aggressive. Neither Power wants to forfeit its treaty claim on an ally, whose succour might be rendered indispensable by the issue of the first naval battle. It follows that we have to thank the quiet but strong influence exercised in favour of peace by France and England if the clouds that, of late, have darkened the Far Eastern horizon are now, to a certain extent, dispelled.

As to the interest which the United States has in the matter, we repeat that the provisions of the treaty of commerce concluded by U. S. with China—the provisions giving access to Mukden and Antung, as well as to Newchwang—will not become operative until ratifications of the treaty shall have been exchanged. We can scarcely bring ourselves to believe that Russia will seriously undertake to nullify those treaty rights.

BEFORE WE CAN use them, iron and gold must first be got out of the ore. The same principle applies to cod liver oil. Its virtues are not in its fatty matters; much less in its sickening taste and smell. No consumptive, or sufferer from any other wasting disease, was ever greatly benefited by the so called "plain" cod liver oil. The shock it gives to the nerves, the repulsion and disgust it excites in the stomach, the outrages it commits upon the senses of smell and taste, are enough to spoil any medicinal potency that may be in it for the majority of people. This—to say nothing about its being indigestible. Yet there has always been reason to believe that, among the elements which form cod liver oil, there existed curative properties of the highest value. But it was necessary to separate them from the nauseating waste material with which they were combined. This was successfully accomplished in

WAMPOL'S PREPARATION and in this effective remedy, made palatable as honey, we have the very heart and soul of Pure Cod Liver Oil, combined with the Comp. Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. These constitute a tissue-builder, a blood purifier, a health renewer beyond comparison. Disease yields to it with a completeness and rapidity which astonishes medical men quite as much as it delights their patients. In all wasting conditions, Scrofula and Blood Disorders, La Grippe, Chronic Bronchitis, Pulmonary Affections, etc., it never fails to relieve and cure. Dr. Louis W. Bishop says: "I take pleasure in saying I have found it a most efficient preparation, embodying all of the medicinal properties of a pure cod liver oil in a most palatable form." It stands in the front rank in the march of medicine. No slow or doubtful action. Effective from the first dose. "You cannot be disappointed in it." Sold by chemists here and everywhere and A. S. HONGKONG, TUESDAY, DEC. 15, 1903.

LOCAL AND GENERAL.

ARTHUR de Rothschild, of the great banking
house of that name, is dead.

ONE fatal (Chinese) case of plague was notified
during the week ended 12th inst.

THE P. & O. Co.'s steamer *Tientsin*, Captain
H. W. Kenrick, R.N.R., is underlined to leave
for Kobe at daylight to-morrow.

THE death is announced of Mr. William Mil-
burn, head of the great shipping firm of William
Milburn and Company, London.

COMPETITION from outside steamers has re-
duced the freight from Colombo to Fremantle
on mail vessels to Rs 15 a ton, the old rate
being Rs 50.

MR. David Jackson, manager of the Hongkong
and Shanghai Banking Corporation, who died
at Yokohama in July, left property which is
valued at £12,067.

THE marriage of Ethel, third daughter of Sir
John Durston, K.C.B., R.N., to Mr. Herbert
Price, of Hongkong and Manila, has been
arranged for Wednesday, January 13.

THE *Novae Vremya*, of St. Petersburg, says
that the Russian guardship at Bushire is in-
tended to counteract the idea that Great Britain
has exclusive rights in the Persian Gulf.

ACCORDING to the Board of Trade Returns, the
exports from the United Kingdom for the first
nine months of 1903 amounted in value to
£217,379,000, and those of the United States to
£201,624,000.

A LAD has been arrested charged with being
the author of the threatening letters received
by the police and others in connection with
the recent cattle-maiming outrages at Great
Wyrley, Staffordshire.

MR. Arthur Chamberlain, brother of Mr. Joseph
Chamberlain, accompanied by his daughters
is on a visit to Ceylon. One of them, a doctor
at the Royal Free Hospital, gave evidence in
the famous Miss Hickman case.

THE *Court Circular* announces that the King
and Queen have received the gratifying in-
telligence of the betrothal of Princess Alice of
Albany to Prince Alexander of Teck, and that
the impending marriage has the King's entire
sanction and approval.

THE keel of the battleship *Hibernia*, a vessel
of the *King Edward VII.* class, has been
ordered to be laid at Devonport, thus averting
the discharge of a large number of workmen.
Work upon the *Britannia* and *Africa*, vessels
of the same class, has also been ordered to be
commenced at Portsmouth and Chatham re-
spectively.

COLONEL Warren, now at Johannesburg, offered
1,000 volunteers to suppress the rising of the
Hottentots in German South-West Africa. The
Governor (Colonel Lettow) declined the
offer with thanks, hoping to be able to suppress
the rising unaided. The offer of Colonel
Warren has caused widespread satisfaction in
Germany.

COMMENTING on the manifesto issued by the
Governor of German New Guinea protesting
against the spread of the English language in
the German colonies in the Pacific, the organ
of the German Colonial Society asserts that
Australia greatly covets the annexation of
German New Guinea and the Bismarck Archi-
pelago. The predominance of the English
language, it adds, is the English way of pre-
paring for hoisting the British flag.

REFERRING to Rand Labour and output a
home journal says that when the mines are
allowed to import Asiatics, the recovery should
be prompt and marked, and within a very short
time after the actual arrival of the aliens on
the goldfields, the industry will be enabled to
restart where it left off on the outbreak of war.
The output for October was 284,544 fine oz., as
compared with 276,197 oz. for the previous
month; and 181,439 oz. for October of last year.
On the month the increase is 8,347 oz.

THE servant question is becoming acute in
Calcutta, and in the present state of affairs
under which a man can be dismissed and
obtain a new situation all within an hour, there
is very little hope for an improvement. If only
some registration system could be evolved by
which the Police were able to produce a re-
cord of the career of every servant, it would be
a great help and safeguard to employers and
would serve to weed out a number of black
sheep who are now fattening upon us, says a
correspondent.

THE Beer to drink in the tropics is the Beer

made in the tropics—SAN MIGUEL.

MS. George R. Stevens, late of Hongkong,
died at 2 Richmond-Grove, Heavymere, Exeter,
on the 6th ult., in his 62nd year.

THE new White Star liner *Baltic*, to be
launched this month at Belfast, will be 24,000
tons register, and will be the largest vessel in
the world.

THE text of the Treaty signed at Shanghai on
September 5th, 1902, between Great Britain
and China, respecting commercial relations,
&c., was issued in London on the 12th ult.

THE following appointment has been made at
the Admiralty:—Engineer Commander J. E.
D. Graham, to the *Tamar*, for the *Wiven*,
and Hongkong Reserve, to date Nov. 10.

THE *Kronstadt Vistnik* states that orders
have been given to push forward the work on
the new Russian battleship *Borodino* so that
she shall be ready to leave for the Far East not
later than next autumn.

THE Japanese tallyman, said to have thrown
a coolie into the harbour from the *Atsutan*
Maru on 8th inst., was committed for trial at
the next Criminal Sessions, by Mr. Sercombe
Smith, this afternoon.

A MARRIAGE will shortly take place, between
M. Charles-Eudes Bonin, Chief of Political
Cabinet of the Governor-General of Indo-China,
and Mlle. Camese, eldest daughter of a
former Prefect of Police.

THE shares of the Banque de l'Indo China,
which have been steadily rising for some weeks
past, further advanced £20 last week, says the
L. & C. E., Nov. 13. The rise is due to
reports as to approximate results of the present
year's working.

Two powerful German salvage steamers are
endeavouring to recover the machinery, etc.,
lost in Dover Bay during the recent gale, when
the temporary breakwater works of the National
harbour were so greatly damaged.

ONE of the officers who took part in the China
War, Lieut. Yobst, has met his death in a fight
with natives near Warmbad, in German South-
West Africa. The Lieutenant had joined the
German troops in South-West Africa about
two years ago.

THE inquest on the body of Sergt. Mann, R.G.A.,
who shot himself on Stonecutters Island on the
4th inst., was concluded before Mr. Sercombe
Smith at the Magistracy this afternoon when a
verdict was returned that death was due to a
bullet shot in the head, the wound being self-
inflicted.

COMMANDER Peary, the Arctic explorer, has
been presented with the Livingstone gold
medal by the Royal Geographical Society of
Edinburgh and at the same time was made an
honorary member of the society in recognition
of his work in Arctic exploration. The Living-
stone medal was founded by a daughter of the
late Dr. Livingstone.

THE further hearing of the case in which Tso
Cheung Shi, a widow, residing at 162, Queen's
Road West, suing as executrix of Tsoi Heung
Po, deceased, is proceeding against Tsoi Shing,
a trader, of 22 Peel Street, to recover the sum of
\$20,000 money received, and \$12,000 damages,
was proceeded with before the Chief Justice
(Sir W. M. Goodman) at the Supreme Court
this morning.—The Hon. H. E. Pollock, J.C.,
instructed by Mr. F. B. L. Bowley, of Messrs.
Dennys and Bowley, appeared for the plaintiff,
and Mr. M. W. Slade, instructed by Mr. C. F. H.
Beavis, of Messrs. Wilkinson and Grist, repre-
sented the defendant.—His Lordship reserved
judgment.

THE correspondent of the *Times* at St. Peters-
burg says it is admitted in official circles that
the policy which led to the occupation of Port
Arthur and Manchuria was not worth the ex-
penditure of money and blood it had entailed,
and that the attempt to secure an ice-free port
in the Pacific has so far proved a failure. The
construction of a huge breakwater at Dalny as
a protection against high seas only resulted in
making the harbour ice-bound in winter, the
lack of this protection heretofore having evi-
dently prevented the accumulation of ice. These
views were confirmed in the interesting
letter from Dalny which appeared in our
columns a few days ago.

THE *Centurion*, battleship, Capt. F. F. Fegen,
carried out her commissioning trials at Ports-
mouth on 10th ult. before proceeding later on
in the day to the China Station. Persistent
rumours have been spread that the sights of
the 10-in. guns are defective. The secretary of
the Navy League reports that the League re-
ceived the following communication from an
anonymous source at Portsmouth:—"Are you
aware that H.M.S. *Centurion* is being hurried
away from England with such defective gun-
sight mechanism for her 10-in. guns that there
is a variable error in them amounting some-
times to as much as 600 yards due to 'back-
lash' in the wheel gearing, which works the
sights? The gunnery experts of the *Excellant*
have refused to pass the sighting gear, but
their protests have been ignored, and the ship
ordered to sail on Tuesday next, Nov. 10, for
China. In the best interests of the Navy it is
absolutely essential that these defects should
be remedied even if it means delaying the ship
for weeks. Can you do something? This is
not the only statement that has been made, but
it seems incredible that the Admiralty would
allow the *Centurion* to proceed if her main
armaments are vitally unreliable. It is a pity
that an official statement is not made on the
matter."

A REPORT that may literally be a pearl of great
price in the future has lately been read before
the Académie des Sciences by Professor
Dubois, of Lyons. For some time past this
learned gentleman has been justifying a com-
mission appointing him to examine the condi-
tions and possibilities of pearl farming off the
coast of Tunis, whence he has contrived to
transplant a colony of pearl oysters to his
biological observatory at Tamaris-sur-Mer,
near Toulon. The specimens shown by him at a
recent session of the Academy were in rude
health, and had apparently benefited by their
migration to French waters. His oysters are
identical with those that furnish the harvest of
the pearl fisheries off Ceylon, and have, pre-
sumably, made their way into Mediterranean
waters via the Suez Canal. The pearls found
off the coast of Tunis are regular in colour
and of beautiful shape, but they are very small
and few to the peck. About one pearl was
found to every 1,000 oysters investigated.

THE Beer to drink in the tropics is the Beer

THE German mail of the 12th November was
delivered in London on the 12th inst.

THE *Universal Gazette* hears that the Te-Hsien
Bank, Wuhu, has been closed, leaving an out-
standing debt of over £15,000 behind.

SECRETARY Hay, Senator Lodge and Director
Rockhill of the Bureau of American Republics
have dined with the President at the White
House, and discussed informally the new Chi-
nese treaty, which was expected to reach Wash-
ington.

THE *Frankfurter Zeitung* says it learns from
Vladivostok that a joint stock company is being
organized there with a capital of \$3,000,000 to
operate the tin mines of Manchuria. The pro-
moters hope to break the Anglo-American
monopoly.

ONE of the greatest triumphs of dirigible
ballooning was achieved last month by the
Lebaudy brothers, whose airship in one hour
and thirty-five minutes covered the forty-six
miles separating Moisson and the Champ de
Mars, Paris.

THE depression in the sailing shipping trade
is so serious as to have led to a drastic proposal
on the part of the Liverpool owners for an inter-
national combination whereby a certain pro-
portion of the sailing tonnage of Great Britain,
France and Germany should temporarily be
laid up, with a view to improving the freight
market. The crisis is attributed here to the
cutting of the French.

THE *Universal Gazette* gathers that M. Lassar,
the Russian Minister, has summoned the
Consuls at Newchwang, Harbin, etc., to Peking
in order to get advice from them as to what
ports in Manchuria should be opened to inter-
national trade, what concessions in Manchuria
should Russia demand from China, what are
the movements of the Chinese officials in Man-
churia, and what is the attitude of the people
in Manchuria towards Russia.

MISS Floy Gilmore, Assistant Attorney-General
of the Philippines, has been admitted to the bar
in Washtenaw county, and this will admit her
to the bar in the Philippines by passing an
examination on local codes, which she will
take on her return to the islands. This will
make her the first woman to be admitted to
the bar to practise in the Orient, which is a
distinction not only for Miss Gilmore, but also
for the University of Michigan, from which she
graduated in 1901.

THE extensive scheme of military reorganisa-
tion submitted to the Dominion Parliament by
Sir F. Borden on the recommendation of Lord
Dundonald, including the formation of a central
camp of instruction, the provision of new
guns and modern rifles, a large increase of the
cavalry, and other features has, says an Ottawa
correspondent, met with the general approval
of the country. The whole scheme will involve
expenditure of \$5,000,000, or \$6,000,000 which
will be spread over five years.

THE peculiar industrial and art products of the
ancient and unique civilizations of the Orient
—of "Ormus and the Ind," China, Japan,
Korea, Siam, Ceylon and the Philippines—will
be displayed in comprehensive profusion for
the first time at a World's Fair in 1904. Some
of these countries were far advanced in the
manufacture of decorative pottery, the pro-
duction of various textile fibres and textile
fabrics, and in metallurgy, when the present
centres of industrial skill in Europe and
America were the hunting grounds of primitive
bowmen. And still the East is the source of
innumerable curios of art and industrial skill
that excite the wonder and envy of Western
artificers. British India, Persia and the Otto-
man Empire have also joined officially in the
displays, and Asia from the Sea of Japan to
the Dardanelles will be represented at the
Louisiana Purchase Exposition.

THE historic letter of General Grant accepting
the nomination to the Presidency, and ending
with "let us have peace," has been found
among some waste paper at Hartford (Conn.)
by a scavenger. The letter was addressed to
General Joseph R. Hawley, President of the
National Union Republican Committee, and is
dated May 29, 1868. After General Hawley
went to Washington as Senator the letter dis-
appeared and was believed to have been lost.
Workmen taking waste paper from the cellar of
the Courant building to send to the ragman
tossed out a bulky envelope which was picked
up by the man in charge and taken to the office.
It proved to be the long-lost epistle, the last
paragraph of which reads: "Peace and
universal prosperity, its consequence, with
economy of administration, will lighten the
burden of taxation, while it constantly reduces
the national debt. Let us have peace."

THE first object of the school is to provide a
Christian training and education for girls of
European and mixed parentage, and the
committee are always prepared to consider
applications for the admission of orphans and
children in necessitous circumstances. The
education given is an ordinary English
elementary education, arranged in accordance
with the Government grant-in-aid scheme.
The girls are also trained in household duties,
and are taught to make most of their own
clothes and to keep them in order. The fees,
including tuition, board, laundry, and clothing
for girls under fifteen, are \$20 a month, while
for tuition only the fees are \$3 a month. The
vacations are one month, about February,
varying with the Chinese New Year; six weeks
in July and August; a few days at Christmas
and Easter. Application for admission will be
made to the Lady Superintendent, by whom
further information will be supplied, at the
Diocesan Girls' School, Rose Villa, Bonham
Road, Hongkong.—I am, sir, etc.

BOXING COMPETITION AT
THE CITY HALL.

There are promises of a good show at the
Theatre Royal to-morrow, that is, to those
interested in the fist art, for Manager
Christie has gone to some trouble to get together
some of our most prominent "punchers," who
will meet in the ring to manfully belabour their
opponents' anatomies and be paid back in the
same coin. A promising programme is publish-
ed elsewhere in these columns, the principal
event of which will be a 20-round match, for
\$400 a side and the gate money, between Sam
Newman, the local Yankee favourite, and Pre-
ston, the champion welter-weight of H. M. S.
Amphitrite. Each man has deposited \$200 with
Mr. J. Christie and the remainder of the money
is to be put up at the ring-side. This ought to
be the event of the season, for Preston has
figured in several main events at the National
Club, and, at home, recently whipped Sam
Beatty. He will go into the ring at 10 stone 5.
Newman needs no introduction to the Hong-
kong public, and in the several scraps he has
been in here, has always come out on the top.
He has also proved himself a clean fighter.
Newman will tip the scales at 10 stone. Back-
ing is brisk on both champions and the even-
ing promises to be a very enjoyable one.

THE CATHOLIC UNION.

XMAS TREE ENTERTAINMENT.

A Toy Bazaar will be held in the rooms of
the Catholic Union (adjacent to the Roman
Catholic Cathedral), on Saturday, 19th inst.,
from 9 to 11 p.m. The children's stalls and
tea room will be opened from 5 p.m. The
proceeds of the sale are to be devoted to the
entertainment of 600 poor children and 200 aged
indigents on Christmas Day, when the gifts
will be distributed to the little ones, in the
room of the Catholic Union, Glenealy, at 3
p.m. and a tea-party will be given. Gifts in
money or toys will be gratefully received by
the Chaplain, the Revd. Father P. Gabardi.
We recommend to the charity of our readers
the excellent, philanthropic work undertaken
by the Catholic Union.

FOOTBALL SHIELD

DIOCESAN GIRLS' SCHOOL.

TO THE EDITOR OF THE "HONGKONG TELEGRAPH."
SIR,—With your kind permission, I should
like to call the attention of your readers to the
advertisement of the above school which ap-
pears in your columns of this issue.

It will be remembered that as the result of a
public meeting held nearly five years ago a
sufficient sum of money was obtained to justify
the promoters of the school in securing the
lease of a house—Rose Villa, West—in which
the work of the school has been carried on
since February, 1900. In November of the
same year a lady superintendent—Miss E. D.
Skipton, B.A.—and an assistant-superintendent—
Miss M. J. Hawker—arrived in the Colony from
England, and under their management the
school quickly grew until it was found
impossible to increase the number of boarders
owing to lack of accommodation. The state
of affairs lasted until quite recently, but when
within the last few weeks the adjoining house
—Rose Villa, East—fell vacant the committee
decided that this opportunity of doubling the
accommodation should, not be missed, and
promptly took the house, thus securing the
whole block for the purposes of the Diocesan
Girls' School. Up to the present the committee,
which is largely composed of ladies, and of
which the Bishop of Victoria is chairman, have
felt that owing to lack of accommodation it
was useless to make any great effort to make
the existence of the school more widely known;
but they now desire to call the attention of the
public to the many advantages which this
school offers.

The first object of the school is to provide a
Christian training and education for girls of
European and mixed parentage, and the
committee are always prepared to consider
applications for the admission of orphans and
children in necessitous circumstances. The
education given is an ordinary English
elementary education, arranged in accordance
with the Government grant-in-aid scheme.
The girls are also trained in household duties,
and are taught to make most of their own
clothes and to keep them in order. The fees,
including tuition, board, laundry, and clothing
for girls under fifteen, are \$20 a month, while
for tuition only the fees are \$3 a month. The
vacations are one month, about February,
varying with the Chinese New Year; six weeks
in July and August; a few days at Christmas
and Easter. Application for admission will be
made to the Lady Superintendent, by whom
further information will be supplied, at the
Diocesan Girls' School, Rose Villa, Bonham
Road, Hongkong.—I am, sir, etc.

WESLEYAN FOREIGN MISSIONS.

ANNIVERSARY SERVICES.

On Sunday morning the Rev. Dr. Noyes
preached to a large congregation in St. Andrew's
Hall. Taking his text from *Eccl. xl. 1*, he
drew an interesting parallel between the
labour of the farmer on the banks of the Nile
and the work of the Christian missionary. In
both cases the methods used seemed to be
perfectly useless, but just as the smiling fields
of golden grain justified the farmer, so success
has crowned and is ever crowning, in larger
measure, the proclamation of the gospel.

The sermon at the evening service in the
Soldiers' Home was by the Rev. W. Bridie.
His subject was "Life and immortality through
the gospel." II. Timothy, I., 10. He showed
that the ordinary traveller or resident in China
practically knows nothing of the physical suffer-
ing of the Chinese, because he cannot get near
enough to the people even if he would. It is
to medical missionaries that we are indebted
for our knowledge of the terrible sufferings of
the Chinese, often arising from preventable
causes. In the same way it is only missionaries
who really know the moral and spiritual state
of the Chinese. The religions of China, in
common with all natural religions, have no
satisfactory answer to the old question: "If a
man die shall he live again?" They have no
doctrine of life and incorruption that is the
revelation and gift of Jesus Christ to the world.

The public missionary meeting at the Home
last night was well attended. Mr. W. J. Anstey,
R.N., presided. The Rev. T. W. Pearce, of the
London Mission, opened the meeting with
prayer. After the reading of the report by the
Chaplain, Mrs. Barnett, speaking for Miss
Postler of the Blind School, Kowloon, described
the beneficent work this institution has already
accomplished. The Rev. Dr. Noyes in a speech
of great interest gave an irrefutable answer to
the question: "Can a Chinaman become a
Christian?" He told with fine effect and much
feeling the story of the Chinese servant of
Judge Custis of California. When this man
fell ill the judge attended him, and did every-
thing he could to save his life. After his death
the judge erected a monument at a cost of one
thousand dollars. On it is this one significant
sentence, describing the judge's estimate of his
servant. "He lived and died a Christian."
With votes of thanks this successful anniver-
sary was brought to a close.

LORD LONSDALE'S

NOTABLE JOURNEY.

The Earl of Lonsdale, who, after a year's
tour round the world, has just arrived in
London, has related to a *Yorkshire Post* re-
presentative some of the experiences which he
encountered in India, China, Japan, Australia,
and the United States.

Lord Lonsdale, who was accompanied by
the Countess of Lonsdale, made the greater
part of his sea journey in one of the vessels
of the German Navy, placed at his service by
the Kaiser, who, on more than one occasion,
has been a visitor at Lowther Castle, and
whose friendship with the Earl has been shown
in many other ways.

SHOT FIVE TIGERS IN LESS THAN 10 MINUTES.
In India, Lord Lonsdale, naturally indulged
in some big game hunting, and during one ex-
pedition at Kuch Behar the party shot five
tigers in less than ten minutes.

In China, the Emperor and Empress gave
the travellers every facility for forming a
true opinion of the country, and they visited
some of the most exclusive cities in the Empire.
The travellers were given the opportunity of
inspecting the great Chinese

The Japanese Diet.

LONDON, 13th December.

The Japanese Diet has been dissolved and a general election is fixed for 1st March next.

Russia and Japan.

The Russian note has been received, but its contents are not known. The Government remains calm and confident, evidently resolved to prosecute the negotiations according to the original plan.

LATER.

M. Delcassé, speaking in the Chamber of Deputies, said he felt certain that Russia and Japan would arrive at an agreement satisfactory to both. Referring to Morocco he said that any French advance must be exclusively of an economic and pacific character.

Germany.

The Reichstag has approved of a Bill extending the commercial agreement with Great Britain two years.

The Kaiser.

The Kaiser has appeared in public for the first time since the operation.

TIENTSIN.

(From Our Own Correspondent.)

November 30th.

Our Scottish residents are as usual flinging wide the doors of hospitality to-night, and the preparations made indicate an unusually nice festival. The weather has turned very cold again, and the snow still lies thick along the less frequented road sides. The state of the Bar has been shocking the past ten days and many passengers have been waiting out there for over a week to get off, while others have given up their projected trips and returned here.

Several rather wonderful stories have been current of late regarding the interviews between the Empress Dowager and her Military Officers and advisers. General Ma is credited with having recently said in reply to inquiries that the Chinese troops are quite equal, so far as capacity goes, to facing any European troops, but that numerically the Chinese Army is weak. This is the reason of the orders issued in all directions to raise more troops. It is one thing to issue orders and another thing to issue funds apparently. As will be seen elsewhere General Ma Yu-kon is stated to be already embarrassed by the refusal by the Board of Revenue to meet certain debit notes for arms already ordered, and the native arsenals are hardly likely to be equal to meeting the demands of ten or twenty new regiments in each province, if that number was really raised. Many references are made in the native papers to the quality of the Russian troops in Manchuria, and it is rather amusing to note that they are all the reverse of complimentary. It is commonly supposed, and apparently on good grounds, that China is afraid of Russia. But a brave show is at least made by native journalists of a superior indifference to her superiority, and we are rather tempted to admire the effort, however ridiculous the logical deductions may be. One paper, writing under Sunday's date, says the Tartar General in Fengtien privately reports the Russians in Manchuria are mere disorderly savages fit only to deal with the brigands, though recently there have been some troops of better quality imported from European Russia. He declares they have no discipline, and that their arms are not of modern type, and that there is no harmony in their ranks. If the Chinese Government can muster only five or six thousand good troops, they could beat the Russians easily. Experience is the only school in which China can learn.

The Empress Dowager's birthday was duly celebrated here by foreigners going to the Yamen, etc., and for two days the usual mumming processions went round the streets. This procession has not taken place in Tientsin for some years, and used to be rather a good show. This year it was reorganized by the Viceroy and at his sole expense, but the show is said to have been a poor one. When the people contributed considerable sums of money and a great deal of ingenuity was expended, but they have no heart for this sort of thing now, and but little interest was taken in the procession.

THE GERMAN MAIL SERVICE.

With reference to the re-distribution of traffic between the North-German Lloyd Company and the Hamburg-American line, it is stated that the Lloyd has hitherto made no profit out of its contract with the Government. During the first years the losses were extremely heavy; in 1895, too, there was a loss of m.300,000 (£15,000); in 1896, however, there was a profit of m.85,000 (£4,250); in 1897 an increased profit of m.600,000 (£30,000); and in 1898 a profit of m.1,400,000 (£70,000). From April 1, 1899, the mail service was extended to the China route in conjunction with the Hamburg line, and the profits rose to m.2,000,000 (£100,000). But from 1900 onwards a period of deficits was recorded, "in spite of the China expedition." In 1900 there was a loss of m.27,000 (£1,350); in 1901 a loss of m.48,000 (£2,400); in 1902 a loss of m.1,200,000 (£60,000). These losses are uniformly attributed to the heavy services which have to be rendered by the steamship companies to the State in return for the subsidies. Among the conditions imposed are the observance of fixed routes and calling at particular ports, great speed, the carriage of mails, and the prohibition of agricultural produce as a cargo for the return journey. *Times*, Berlin Correspondent.

THE NEW FRENCH REMEDY

TRADE THERAPION MARK

This successful and highly popular remedy, used in the
Continental Hospitals by Ricord, Kossin, Jobert, Valpey,
and others, combines all the desiderata to be sought in a
medicine of the kind, and surpasses everything hitherto
employed.THERAPION No. 1 is a re-
markable shortening, often a few days only, removes all discharges from
the urinary organs, effectively remedying all the various
affections of the lower bowel, such as dysentery, colic, and
of which does irreparable harm by laying the foundation of
stricture and other serious diseases. In dysentery, piles,
and all the other affections of the kind, it is the most
effective and most reliable remedy. It is the only medicine
which does not irritate the bowels, and which is perfectly
safe in all cases.THERAPION No. 2 is a re-
markable shortening, often a few days only, removes all discharges from
the urinary organs, effectively remedying all the various
affections of the lower bowel, such as dysentery, colic, and
of which does irreparable harm by laying the foundation of
stricture and other serious diseases. In dysentery, piles,
and all the other affections of the kind, it is the most
effective and most reliable remedy. It is the only medicine
which does not irritate the bowels, and which is perfectly
safe in all cases.THERAPION No. 3 is a re-
